

VIKAS CHAURASIYA

Aspiring Data Analyst | SQL · Python · Power BI · Excel

Mumbai, Maharashtra, India • +91 9136813949 • vikas.analytics08@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Final-year Electronics & Telecommunication Engineering student and results-driven aspiring Data Analyst with hands-on experience across the full analytics workflow — from cleaning and structuring raw data to building interactive dashboards that translate numbers into clear business insight. Proficient in SQL, Python (Pandas, NumPy, Matplotlib, Seaborn), Microsoft Excel, and Power BI (including Power Query and DAX), with a working knowledge of PostgreSQL and version control through Git and GitHub. Combines strong analytical rigor with a long-term goal of progressing into a Data Science career, backed by practical project work and industry-recognized job simulations from JPMorgan Chase, Deloitte, Tata, and IBM.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Data Analysis Libraries: Pandas, NumPy, Matplotlib, Seaborn

Business Intelligence: Power BI, Power Query, DAX, Microsoft Excel (Pivot Tables, Advanced Formulas)

Database Management: PostgreSQL

Development Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Core Competencies: Data Cleaning, Exploratory Data Analysis (EDA), Dashboard Development, Business Intelligence Reporting, Descriptive Statistics

KEY PROJECTS

- **Global Defence Analytics Dashboard** (*Power BI*) — Designed and built an interactive dashboard analyzing defence-sector metrics, integrating multiple data sources with dynamic slicers so stakeholders could track KPIs such as expenditure and resource allocation at a glance.
- **Titanic Survival Analytics Dashboard** (*Power BI*) — Developed an interactive report visualizing passenger survival patterns aboard the Titanic, using demographic and ticketing data to highlight key survival factors including passenger class, age, and gender.
- **Diwali Sales Analysis** (*Python*) — Cleaned and analyzed festive-season retail sales data using Pandas and NumPy, performed exploratory data analysis to uncover purchasing trends, and visualized regional and demographic patterns using Matplotlib and Seaborn.
- **Music Store Sales Analysis** (*SQL*) — Queried a relational music-store database using multi-table joins and aggregate functions to answer real business questions, including top-selling genres, high-value customers, and revenue trends over time.
- **ICC CWC 2023 Team Performance Dashboard** (*Excel*) — Built an interactive dashboard using Pivot Tables and dynamic charts to analyze team and player performance across matches during the ICC Cricket World Cup 2023.

CERTIFICATIONS & JOB SIMULATIONS

- **JPMorgan Chase & Co.** — Quantitative Research Job Simulation (Forage): applied data analysis techniques for financial decision-making in a simulated research environment.
- **Deloitte** — Data Analytics Job Simulation (Forage): completed data forensics exercises and built a data dashboard as part of a simulated consulting engagement.
- **Tata** — Generative AI Job Simulation (Forage): explored practical business applications of generative AI within a simulated consulting context.
- **IBM** — Data Analysis with Python: certification covering data wrangling, exploratory analysis, and foundational predictive modeling techniques in Python.

EDUCATION

B.E. in Electronics & Telecommunication Engineering | Expected 2027

Shree L.R. Tiwari College of Engineering, Mumbai University

Higher Secondary Certificate (HSC) | Maharashtra State Board, 2023

Secondary School Certificate (SSC) | Maharashtra State Board, 2021
